Hi Kate,

As discussed earlier , please review the attached draft portions of the hazard identification section and the supporting information in the appendices. Please also review the current draft version in the Response to Comments document ( pages D 34-37 and D 42-48). Please let me know if you can complete review and send your comments to me in track changes by May 13, 2013. I would like you to review the Genotoxicity section first that was sent earlier today .

If you have any questions, please let me know.

Thanks,

Bob
