

Economic Benefits of Polyurethanes (2022)

This summary highlights the importance of the polyurethanes industry to the U.S. economy as described in the findings of the study entitled *Economic Benefits of Polyurethanes (2022)*. The study can be found at www.americanchemistry.com/polyurethanes.

POLYURETHANES: Created in hundreds of locations in the United States, generating **\$41 billion** in output and **60,200 jobs**

POLYURETHANES SUPPORT AND ECONOMIC GROWTH

- In total, about **332,000 jobs** and **\$118.6 billion** in output
- Polyurethanes generate nearly **\$400 billion** in output and employ more than **1 million** workers in other industries

POLYURETHANES GENERATES JOBS

- Additional **\$77.6 billion** in economic output and **272,000 jobs** in related industries

INDUSTRIES THAT DEPEND ON POLYURETHANES

- Building & Construction
- Transportation
- Appliances
- Furniture
- Bedding

POLYURETHANES MULTIPLIER EFFECT

- Industry generates upstream jobs in direct supplier industries and other employment
- Nearly **5 U.S. jobs** are created for each job in the U.S. polyurethanes industry
